Dear Sir or Madam,

On behalf of Institute Hyalual, we are glad to recommend Task Force translation company.

We have been cooperating with Task Force since 2012, and it is currently one of our key approved translation and interpretation services providers.

We have got various documents translated, including marketing materials to promote products, in different languages of the world.

We appreciate the company's commitment to work and promptness. In addition to the mere translation, Task Force specialists provide us with services for proofreading by native speakers, desktop publishing, and interpretation.

Throughout our collaboration, we have held a number of feedback meetings with the company and we are generally satisfied with how Task Force works with the expectations received.

We appreciate the work and recommend to cooperate with the company!

Best regards,

Marketing Specialist
