To whom it may concern

Limassol, 12 March 2018

I am glad to recommend Task Force translation agency, a translation agency based in Ukraine but performing certain translation work for us, in Cyprus. We collaborate with this team mainly regarding translations from English and Greek into Russian, although I know they work with many more languages.

We are satisfied with the quality of translation; the translators and editors of this team are very well familiar with legal documents. Also, the level of service is good; the managers respond quickly, and overall this team is easy to work with. They keep deadlines and are attentive to detail.

I am confident to recommend Task Force to anyone who needs timely and qualitative translation services.

Best regards

Lia Iordanou Theodoulou
