TO WHOM IT MAY CONCERN

February 14, 2023

Dear Sirs,

I am writing this reference letter to express my highest recommendation for the services of Task Force translation. As a technology company that designs and develops innovative devices for pets, Petcube, Inc. places a high value on exceptional quality and attention to detail. Task Force exceeded our expectations and delivered results that were truly outstanding.

We recently utilized their services for the translation of our User Guides from English to French and German. The quality of the work was impeccable, with a meticulous attention to detail and a deep understanding of the technical terminology. The final product was a testament to their expertise and professionalism.

Based on our positive experience, I have no hesitation in recommending Task Force for any high-quality translation and localization assignments. Their commitment to delivering exceptional results is unparalleled in the industry.

Best regards,

Victoria Didovets , OPS Manager
Petcube, Inc. United States
